

# Psychological

## Pet Shop Boys

Psychological You've got a problem  
With the reason why  
An asymmetric haircut  
And a painted eye It's psychological  
Psychological Is it a cry for help  
Or call to arms?  
Frustration  
False alarms It's psychological  
Psychological  
All in the mind There's something in the attic  
And it smells so bad  
An undertaker  
In a bowler hat  
Psychological What's that spilt  
On the kitchen floor?  
Who's that knocking  
On the cellar door? It's psychological  
Psychological Or is it only your imagination?  
Driving me crazy, crazy  
Baby, baby, please It's psychological  
All in the mind I thought I heard a baby cry  
I thought I heard a train  
Down in the cemetery  
Cellophane It's second nature to you  
Psychological  
All in the mind Psychological  
Psychological  
All in the mind Psychological  
Psychological  
Psychological  
All in the mind
