

Kiss Of Death

[Tinsley Ellis](#)

If I can't have you baby
Might as well dink gasoline
I can't have you baby
Might as well dink gasoline
That's the drink I can't down
Lovin' you is the kiss of death for me
Can't sleep at night
Don't know how I get through this whole long week
Lord I can't sleep at night
Don't know how I get through this week
Haven't slept can't carry on
Lovin' you is the kiss of death for me
Take my hand
Lead me from this pain and misery
Take my hand
Lead me from this pain and misery
I know you won't have me
Lovin' you is the kiss of death for me
