

Little Flowers

Meet Me At The Pub

(Intro)

A little room is all I need
Its only fair for you and me
Give it time and you will see
How you love a girl for me
Your life is all I need
When your with me, I'm complete
I never want to put you down
You come with me from town to town..

She gives me, she gives me sweet little flowers
She gives me, she gives me sweet little flowers

You can see it in my eyes,
Cuz there's no way to disguise this love..

She gives me, she gives me sweet little flowers
She gives me, she gives me sweet little flowers

And I put it in my hand, she's the best I ever had..in life

And its right next to my bed
You're the best I ever had, no you really not that bad..in life
