

# A Rose By Any Name

## Blondie

Black and Red look so good on you  
And your walk makes me believe you  
Lipstick rings are on my fingers  
want the night to always linger (linger,linger,linger)If your a boy or if your a girl, i'll love you just the same  
wherever you go all over the world, a rose by any name  
If your a boy or if your a girl,Ill love you just the same  
wherever you go all over the world, a rose by any nameSmoking cigarettes in bed, all the same what will they  
get?  
In the streets they'll never know  
Mysteries will never show (show show show show)If your a boy or if your a girl, i'll love you just the same  
wherever you go all over the world, a rose by any name  
If your a boy or if your a girl,Ill love you just the same  
wherever you go all over the world, a rose by any name  
a rose by any name  
a rose by any name  
a rose by any namewant the night to always linger....If your a boy or if your a girl, i'll love you just the same  
wherever you go all over the world, a rose by any name  
If your a boy or if your a girl,Ill love you just the same  
wherever you go all over the world, a rose by any nameIf your a boy or if your a girl, i'll love you just the same  
wherever you go all over the world, a rose by any name  
If your a boy or if your a girl,Ill love you just the same  
wherever you go all over the world, a rose by any namea rose by any name  
a rose by any name  
a rose by any name  
a rose by any name
