Breaking

The Swon Brothers

What could be so bad you'd think about walking out
How could you take one step from the life we built
And not want to turn around
We can scream, we can fight
We can spend the night sleeping in separate rooms
Checkmate baby, waiting on the next move
But it ain't about winning or losingI'll keep my heart wide open
Take a bullet, take the blame
Anything for you, you
And I would chase every dream you can dream of
Ain't a part of me I wouldn't give up for you, you
Through the fire and the rain
You're the one my heart keeps chasing
Even when it's breakingHalf a bottle of wine, the words fly that you can't take back
Those sweet red lips firing shots out baby
'Cause you want to make me mad
Throw me your keys, say you're gonna leave
Shatter me piece by piece
And girl you're trying to cut me deep
When you say we never meant anythingI'll keep my heart wide open
Take a bullet, take the blame
Anything for you, you
And I would chase every dream you can dream of
Ain't a part of me I wouldn't give up for you, you
Through the fire and the rain
You're the one my heart keeps chasing
Even when it's breaking
