My Day

Domestikated

As we're nearer to the end;
Here we are again
Seems like we're always working
At this time of year
We have come a long way, my friend
How many hours we have spent
Seems like we're always working
At this time
This is my day
And I wanted you to know
This is my day

And I'm gonna be okay
Through the steady sweep of days
Keeping focus as the currents race
Seems like we're always working
At this time
This is my day
And I wanted you to know
This is my day
And I'm gonna be okay
