Wish

The Fixx

I will not speak strangely of this
Just put myself where you are
Life is so much clearer adrift
Just put myself where you areYour wish is my sentence
And your truce, I can't deny
Blocked veins in the system
I think there you are
So I just put myself where you areI could come much closer than this
To put myself where you are
But if life is just to hold and resist
I'll lose myselfYour wish is my sentence
Your truce, I can't deny
Blocked veins in the system
I think there you are
So I just put myself where you are
I just put myself where you areSo your wish is my sentence
Your truce, I can't deny
Blocked veins in the system
I think there you are
So I just put myself where you areI will not speak strangely of this
I just put myself where you are
Life is so much clearer adrift
I just put myself where you areI could come much closer than this
Just put myself where you are
I will not speak strangely of this
Just put myself where you are
Life is so much clearer adrift
