It's Looking Good

The Rutles

There was no one in my life 'till I met you
You brought me love and taught me how to smile
You picked me up when I was feelin' blue
From now on, my future is worth while
X It's looking good, It's looking good, It's looking goodIt's looking good, It's looking good
Now that you have given me reason to live
I will stay forever by your side
And give you all the lovin' I can give
Just say the word and be my brideI'm not throwing caution to the winds, oh no
Love is not an easy game to play
Tho' I may not be a man of words, yea yea
There is one thing I feel that I should sayIt's looking good, It's looking good
It's looking good, It's looking good
