## TEEN

Time has become an obsolete entity  
So much passes by without me noticing  
He lives in the past and I live there with him  
My heart refuses to catch up with reality  
What does that mean anyway? I can get on by in the daylight under the sun  
Though in my bed of dreams he always seems to come  
Memory is a tricky game and I play the lonely fool  
My mind just won't let forget that I'm alone  
Is it my love or my youth that I have lost?  
My humanity left out in the dark Say what you will  
Say what you want  
I'll never move on  
And who was I?  
And what are you?  
Will I ever know? So I'll drink up  
I'll drink down  
I think I'll drink all I can  
I'll drown everything  
That makes me feel  
Like a man  
What have I become?  
Animal, an animal  
What have I become?  
An animal, an animal  
An animal, an animal
