Religious Lies

Abduktion

Religious fools want to control our lives - Fuck them! Religious fools want to control our lives - Fuck them! America is filled with God fearing Christians that follow along Being brainwashed by leaders Since the day they were born Don't listen to a god Don't listen to your rulers We don't need them All they do is take our freedom away Religious fools want to control our lives - Fuck them! Religious fools want to control our lives - Fuck them! The leaders know how to control Justifying their wars, killing others in the name of god Every child that gets baptized Their heads get filled with lies Manipulated by religion Manipulated by politicians Conditioned since they're young to conform They don't question anything Religious fools blindly follow Religious fools fuck with our lives Religious fools bash our heads in With their Christian Morals Religious fools blindly follow Religious fools fuck with our lives Religious fools bash our heads in With their Christian Morals - I don't need Religious fools want to control our lives - Fuck them! America is filled with God fearing Christians that follow along Being brainwashed by leaders Since the day they were born Don't listen to a god Don't listen to your rulers We don't need them All they do is take our freedom away
