Our Diabolikal Rapture

Him

In our diabolikal rapture, we live on and on
And death keeps knocking at our door
So we open the door and we die a bit more
We're in love with death and we die on and on
[Incomprehensible]Won't you close our eyes?
We'll be by your side
In your heavenly rapture, we die on and on
And you keep waiting at our door
Yes, we open the door, let us die a bit more
Because we're in love with you and we die on and on
Won't you close our eyes, eyes?
We'll be by your side
Your love is the only thing I live for in this world
Oh how I wait for the day your heart burns
In these heavenly flames, I have already scorched in
I just want you to know, I'll always be waiting
Your love is the only thing I live for in this world
Oh, how I wait for the day your heart burns
In these heavenly flames, I have already scorched in
I just want you to know, I'll always be waiting
