No Easy Way Out

Paul Carrack

The same thoughts going through my head
So many things better left unsaid
Well I'm telling you baby, there's no easy way outDreams may shatter, tears may fall
So hard to make any sense at all
Well I'm tellin' you darlin' there's no easy way outAll I can do is wait, I don't care how long it takesBaby I just want to be standing by your side
Whenever you need whatever I can doDon't worry bout losing face
You know my heart is in the right place
Well I'm telling you baby there's no easy way out
You know it's only a matter of time
Then everything's gonna work out fine
But I'm tellin' you darlin' there's no easy way outAll I can do is wait, I don't care how long it takesBaby I, just want to be standing by your side
Whenever you need someone to hold you tightTry to understand that every word I say is true
Tell me what else can I do?
I just want to be
