

# Lust

## Never Shout Never

I've been so disinterested in love  
These modern times evaporated any chance for trust  
To live a fool or die alone  
To say goodbye or be disowned  
Make a choice or live inside the gray I know everybody knows  
Everybody knows it takes time  
To figure it out I've been so preoccupied with lust  
The rush it takes me over  
Then it leaves me more fucked up  
To be a perv or be a prude  
To make false love or push on through  
Trusting that she really does exist The one you heard about  
When you were still a child  
Don't give up just yet  
You still got so much time  
To figure it out I've been so unsatisfied with touch  
See I've kissed 7 thousand women  
Yet I still can't get enough  
To have some fun or sleep alone  
To hit the bars or just go home  
Make your choice or live inside the gray  
I'm okay I just wanna fall in love  
I just wanna fall in love  
I just wanna fall in love  
I just wanna fall in love
