Circa Survive

And excusing whatever you choose
Sweeter than your pains
See is the pleasure
Meet with tears of pain in terms of
The same as everyone insisted
I won't let you go until we meet

You have everything you could need
And you wasted on a promise you hate
So you break it
Ever changing the places we hide

And excusing whatever you choose
Sweeter than your pains
See is the pleasure
Meet with tears of pain in terms of
The same as everyone insisted
I won't let you go until we meet
