Night Night Stars

Jane Monheit

Little boy now a little man
Growing up fast as you can
I will always feel your little hand
On my cheek, in the darkLittle boy where you are
Still small out for his arms
Your little voice from the back of the car
Night, night starsHow long can we have together
Until time winds away
And the magic is done
Hold on to my heart forever
No matter how far and how fast is flyingLittle boy can you stay as you are
IÃ¢Eâ„¢ll keep you safe under skies big and dark
IÃ¢Eâ„¢ll gather you up in my sheltering arms
Our voices together will candle a spark
Singing,
Night, night stars
