Hater

Delilah

Yeah, live and let live, motherfuckers
I'ma do me, you do you
You're all a bunch of haters
I don't like the way that you talk to me
When you tell me how it's gonna be
And I don't like the way that you smile at me
When you tell me what is wrong with me
Sometimes I wish you would go away
Go away and never ever come back
I don't like the meaning that make the things you do
It makes me wanna hate on you
Yeah, it's got me sad, I'm kinda stressed
You got me feeling anxious, I'm always depressed
And I don't wanna play this game of tug of war
I don't wanna be with a hater like you anymore
I don't wanna be with a hater like you anymore
No, no, I don't wanna be with a hater
You are such a hater
I don't like the way that you never take the blame
For absolutely anything
And I don't like the way that you put me through hell
For all those things you do yourself
Sometimes I wish I could disappear
Fade away into a happy new life
I don't like the way that you're always telling lies
You talk about me all the time
I hear you talk, you are such a bore
I see the way you look, I think you look like a whore
I know you know I know the way you worthy for
I don't wanna be with hater like you anymore

I don't wanna be with a hater like you anymore
No, I don't wanna be with a hater like you
Hater, hater
I don't wanna be with a hater like you
Hater, hater
I don't wanna be with a hater like you anymore
Anymore, no, no
I don't wanna play this game

No, I don't wanna play games
You're a hypocrite, yeah, you lie to me
You use words you don't understand, you embarrass me
Yeah, you're beautiful in an ugly way
Hey, the sex was never that good anyway
It's got me down, I am super stressed
I'm taking medication, I'm always depressed
I don't wanna fight you in this tug of war
I don't wanna be with a hater like you anymore
I don't wanna be with a hater like you anymore
I don't wanna be with a hater like you
Hater, hater
Hater, hater
(I don't wanna be with a hater like you)
Hater, hater
Hater, hater
Hater, hater
(I don't wanna be with a hater like you)
Hater, hater
Hater, hater
