

Invisible Hand

Whisperado

Here's the deal / Under the sky
You don't live here / Neither do I

Black is white / Night is day
Everything's normal / So they say

It's crazy time / It's all the old sins
Everybody says / The fix is going in

Invisible hand
Invisible heart
Nobody's fault
How did it start?
Nothing's free
Everything's owned
When did we
Become so alone?

Everything's good / Everyone's fine
Everybody's having / A really good time

Nothing you see / Nothing you hear
Nothing you say / Will get you out of here

Invisible hand
Invisible heart
Nobody's fault
How did it start?
Nothing's free
Everything's owned
When did we
Become so alone?

Laugh all evening / Cry all day
Some bright morning / I'll fly away
