

Movin' On Down The Line

The Black Crowes

It's all right sisters
It's all right brotherIt's all right sisters
It's all right brotherIt's all right sisters
It's all right brother
It's all right brothers
It's all rightIt's all right sisters
It's all right brotherThe wheel within the wheel
The water below the well
Keep the curtain drawn and the record on
And the curtain what do you say
Bring the bottle here
Make the real unreal
And lets go out and play[Chorus]
It's all right sisters
It's all right brother
We all get down sometimes
Starting to show me
Starting to know me
Starting to feel the shine
Starting to let go
Now that we know
Time to move it on down the lineThe exit marks the hex
That moves from next to next
Keep your head on tight
To make it through the night
You got to make a friend along the way
So cover up your tracks
And avoid a tax
And you'll live to love another day[Chorus: x2]Time to move it on down the line [x3]
