I Wished On A Plane

Taylor Swift

Throwing pennies at the fountain
But when you're standing on a mountain
It's kinda hard to aim.
Like the tree we cut our names in
There must be an explanation
Guess it didn't get enough rain.
I need reasons why you're leaving.
Well I guess I wished on a plane,
I thought it was a star.
Guess what you wrote on the paper wasn't really on your heart
Could've sworn you said you loved me
I guess I heard you wrong.
And I guess I wished on a plane,
I thought it was a star.
Diving up into the deep end
Honestly believed you'd be there
When I jumped in.
Guess it ain't your territory
We had the perfect love story
Except the ending.
Back then comes true
And it comes to you now.

And I guess I wished on a plane,
I thought it was a star.
Guess what you wrote on the paper wasn't really in your heart
Could've sworn you said you loved me
I guess I heard you wrong.
And I guess I wished on a plane,
And I thought it was a star.
And that was, it was too cloudy
It's not my fault
I just couldn't see
And I guess I wished on a plane,
I thought it was a star.
Guess what you wrote on the paper wasn't really in your heart
Could've sworn you said you loved me
I guess I heard you wrong.
And I guess I wished on a plane,

And I thought it was a star.
Oh oh oh oh oh
Oh oh oh oh oh oh
Throwing pennies at the fountain
When you're standing on a mountain
It's kind of hard to aim.
