Shiny And Warm

Goldfrapp

Look at the trees through the window
And the moon and the snow
You play with my cheek, yeah
Whisper something, I were born
Liquid light, harmony
Wrapped around inside of me
Born out of trees
On a moonlit song, it's free
Shiny and warm, shiny and warm
Head in the storm, I'm driving home to you
Shiny and warm, shiny and warm
Licking the tar, I'm almost there for you
Wind down the window
And feel a rush of air around my face
Breathe in the night, wet and warm
Feel the outside coming in
Look at the trees in the dark
Bending like a bony finger
Gravel flicks on a metal moon
Wild and free
Shiny and Warm, shiny and warm
Head in the storm, I'm driving home to you
Shiny and warm, shiny and warm
Licking the tar, I'm almost over you
Light licks the tree, feel the rush
Cold air wrapped around my head
You play with my cheek, yeah
Whisper something, nearly dawn
Yeah, yeah, yeah, yeah, ohh
Shiny and warm, head in the storm
Licking the tar, I'm driving home to you
Coming around, coming around, coming around
I'm driving home to you
Coming around, coming around, coming around
I'm almost there for you
