

# Treason, Politics & Death

## Acrania

Is the enemy close enough?  
We don't care, we won't stop  
Look around you  
Murder is what you can find  
But the real bombs  
Are the ideas you hold behind  
This is far away from being in paradise  
It's closer to being in hell  
March to Managua onward to war  
And drive the Yankees away  
Treason, Politics and Death  
Weapons are for liberty  
Treson, Politics and Death  
Sovereignty we'll defend  
And when you're closer  
Victory is not so real  
Winner or loser  
The beaten path is too hard to peer  
Blood is on the walls  
Beliefs on the floor  
Stopping greed is so hard,  
Sovereignty of the people  
Is not up for discussion,  
It's defended up in arms  
Treason, Politics and Death  
Weapons are for liberty  
Treson, Politics and Death  
Ahhh!!  
Tell me if you can feel the sorrow  
Of a thousand deaths on you  
I know why you're digging that hollow grave  
Your treason will be paid with the truth  
C'mon!!!  
That's what I gave  
That's what I've made  
Now it's in your hands  
So dooooooon't, don't fail.  
Treason, Politics and Death  
Weapons are for liberty  
Treson, Politics and Death
