

# Happymess

## Atmosphere

[Verse 1]

Remember that time that I made you so mad  
Last week right ha ha you know that  
It's not like it's all that rare  
So put it here and let me cherish the embarrassment  
I realize I've been a dick head yes  
And I respect how you question your investments  
I take the plane but it ain't to be IÂ´mpressive  
It feels like a cop out to label it lessons  
I've been through the rain but I've put other people  
through a hurricane just to work the game  
Some tIÂ´me I swIÂ´m through so much shame  
I think my little man's blessed that  
he didn't get my last name  
And here you are right in front of me  
offering it all like tell me what you want from me  
I wanna love you today and forever  
Let me clear my through and rub my wings together

[Chorus X2]

It goes: IÂ´m not perfect but IÂ´m this that and this  
My hands are dirty and IÂ´m this that and this  
You've been searching for this that and this  
Let's break the surface and make a little happy mess

[Verse 2:]

Whoo girl, you're the most beautiful thing I've seen  
Enticing, exciting  
Even the sound of your voice gotta nice ring  
Ya seem like the type that might help  
me tighten up my pipe dreams  
We can keep digging through this dirt  
Team up, you and I against the universe  
Think about it, What cha say to yourself  
You can wear my cape and I can play with your belt  
The truth is there now  
Stand with me, look into that mirror now  
And tell me you don't see the same IÂ´mage

Gonna be a brand name babe once the rain is finished

[Chorus X2]

[Verse 3:]

I can't believe she got me on a ball and chain  
It's not a complaint, I appreciate it  
For all the dumb mistakes I make  
IÂ´m surprised baby girl ain't threw me away  
I never meant to hurt no one  
I just want to stay productive till the work is done  
I dance to a certain drum  
but when I fell off beat you didn't turn and run, no  
You see me at my lowest moments  
You gave me sight when I had broken focus  
With a smile that opens up like a rose does  
Even when it all seemed so fucking hopeless  
And here you are, right in front of me  
Offering it all like 'tell me what you want from me'  
I want to thank you today and forever  
Let's make a little happy mess together You know

[Chorus X2]
