

5pm in Los Angeles

Glowing Pineapples

I can't really get on to it all I can tell y'all that it is about to go down

Isn't it crazy (x6)

I wanna know

Do you even feel the same do you even know my name do you think that you and I could ever be

Do you

Isn't it crazy (x3)

I wanna know

Do you even feel the same do you even know my name do you think that you and I could ever be

Do you

PINEAPPLES
