Take That Ride

Hogzilla

Don't you believe I love you long enough?
Didn't I try to give you all the right stuff?
Hung around when the going got tough
Don't you believe I loved you long enough?
Where were you when the world turned black?
All those nights you never answered back
And I just asked you to cut a little slack
Where were you when the world turned black?
One of these days I'm gonna take that ride
Though there may be nothing on the other side
I'm too old for changing, my true blues have all been tried
One of these days I'm gonna take that ride
You always were the one
Gave me my place out in the sun
Every race that's lost or won
It was thy will be done
Don't you believe it's time to let me go?
The clock is winding down and I'm moving slow
I could keep on dancing but it's just for show
Don't you believe it's time to let me go?
One of these days I'm gonna take that ride
What ever's waiting on the other side
Had a little glory and I still got my pride
One of these days I'm gonna take that ride
One of these days I'm gonna take that ride
Oh, don't you believe it's time to take that ride?
Take that ride
Take that ride
Take that ride
