

In The Club

[Danny Saucedo](#)

"It's Friday night
I barely made it through this week
I text my friends, put on my favorite song on repeat
The time is ticking', let's get wicked gotta hit the street
- hit the street
- uh oh uh
There's no need to worry 'cause we're always on the list
In the club
In the club
In the club
In the club - oh oh
In the club - oh oh
In the club - oh oh
In the club - oh oh
The lights are low
Girls are frontin' everywhere we go go go
uh uh uh
Bottles up
The beat is droppin' as we hit the floor
Uh uh uh
Everybody's goin' crazy
Screaming out for more...
In the club - oh oh
In the club - oh oh
In the club - oh oh
In the club - oh oh
Ain't no place in this world where I would rather be
Than here with you and rock this club
- that's my philosophy
You and I
Through the night
In the club
In the club
In the club
Alright alright so let me get a second now
To clear my head from everything
That's spinning round'n round
I've seen you checking me out
Don't be stranger please come around
Tell me about ya, where are you from
I love to get to know ya, in this club"
