

# Revelation

## Halloween

Now we chase the end of time  
Afraid of what we will find  
Once again since Jesus Christ  
The stars look down on mankind  
Revelation, overcome creation  
([Incomprehensible])  
False illusions fade and die  
Whatever we awaited, charity or hatred  
Whatever we awaited will arise  
It's revelation, revelation  
Power and prosperity  
It won't be like before  
Name, rank and authority  
Not counting any more  
Revelation, overcome creation  
([Incomprehensible])  
False illusions fade and die  
Whatever we awaited, charity or hatred  
Whatever we awaited will arise  
It's revelation, yeah  
Bemoan your words, bemoan your deeds  
Repent your thoughts of lies  
Attain your sword, attain your shield  
Defend the sense of life  
Bemoan your hate, repent your greed  
Improve your rotten seed  
Pray for the child  
Thought born just by a fraud and a whole  
Pray for the child  
Who won't know what is crying for  
Revelation, overcome creation  
([Incomprehensible])  
False illusions fade and die  
Whatever we awaited, charity or hatred  
Whatever we awaited will arise  
It's revelation, yeah, ooh yeah, it's revelation
