

# When You Wish Upon a Star

[Eels](#)

when you wish upon a star makes no difference who you are anything your heart desires will come too you.  
if your heart is in you dreams no request is to extreme when you wish upon a star as dreams do.  
fate is kind she brings to those who love, love sweet fulfillment off their secret longing.  
like a boat down of the blue fates steps in to see through.  
when you wish upon a star your dreams come true.
