

Lola Stars and Stripes

The Stills

we all need to feel secure
we're so middle class
But i'm still waiting for next week's chemical blast don't go feeling insecure, no feeling sad
with an M-16 you'll feel the surge of your american past
but are you afraid?
you always said the world would never last
and lola i'm not afraid
if you star-wipe all your past away
and the sun burns one more day lola, lola, will the world end me and you
lola, lola, no we're never gonna make it through can you take me back to that place where stars glow
comets swarm like fireflies outside your window but are you afraid?
you always said the world would never last
and lola i'm not afraid
if you star-wipe all your past away
and the sun comes one more day lola, lola, will the world end me and you
lola, lola, no we're never never make it through
lola lola lola lola oooooooooohhhh
