## **Fever Dream**

## **Bury Your Dead**

Everyday it starts again Waking up to feet on shaky ground This is just another poor excuse for trying The more I give the more you take awayNow every ounce I have, I draw Just to push me through another dayHeels dragging Heart lackingBut it's so damn hard When the weight of the world Is on your shouldersNow who am I to express and complain That this is killing me? It never mattersI said it once and I'll say it all again Keep screaming, keep waving You're digging holes and I'm buried insideNo one can hear you But if we give up now Then at least we can say we triedEveryday it starts again Waking up to feet on shaky ground This is just another poor excuse for trying The more I give the more you take awayNow who am I to express and complain

That this is killing me?

It never mattersI said it once and I'll say it all again

Keep screaming, keep waving

You're digging holes and I'm buried insideNo one can hear you

But if we give up now

At least we can say we triedHeels dragging

Heart lacking
