

I Can See Her

[Nick Roes](#)

I can't wait to have her; I want her so bad,
The most beautiful love that I ever could have.
Please Lord I want to be blessed by her kiss.
Show to me what for too long I have missed.
And I can see her; she's not far away.
Soon she'll be here. I pray for that day.

Though we've glanced at each other, we never have met.
She sure is illusive; she plays hard to get.
But anything worthwhile has to come slow,
And I've waited so long and I do want her so.
And I can see her; she's not far away.
Soon she'll be here. I pray for that day.

So many have cried trying to win her heart,
Everyone wants her, but no one will start.
Until she is mine, my longing won't cease.
I want her now.
And I can feel her; she's not far away.
Soon she'll be here. I pray for that day.
