

"All of Us"

Painted Palms

I searched the sand
Wishes ran through my body
I wasn't sure if you'd see them
They were all around you

When I searched the sand
Wishes ran through my body
I wasn't sure if you'd see them
They were all around me, me

Here hand in hands
We're tangled up and dreaming
I felt like sun, you said you felt like sea
But all we could do was keep watching the waves hit our feet
All we could do was keep watching the waves hit our feet
All we could do was keep watching the waves hit our feet
All we could do was keep watching the waves hit our feet

Back to the ocean
Back to the ocean again
All of us, all of us

Back to the ocean
Back to the ocean again
All of us, all of us

Back to the ocean
Back to the ocean again
All of us, all of us

Back to the ocean
Back to the ocean again
All of us, all of us
