Dressed To Kill

Lita Ford

You're dressed to killCome a little closer, so I can look you in your eyes

So I can see what I been missing, so I can see through the disguise

You're dressed to killYou got me in the sight of your gun, you're dressed to killSell your soul to rock and roll

The only thing that thrills you

Evil grins as night begins

Gonna rock until it kills you

Learn to live fast

Learn to die young

Life's one big chase

You're caught in the race

You're never gonna slow downYou're dressed to kill

Kill me baby

You're never gonna let go

You're dressed to kill

You kill me baby

You're dressed to killWake the dead with loud guitars

Screamin' in your head

An angel sings, fulfills the dreams

That are dancin' in your bed

Live for the danger

Die for the fun

Life's one big chase

You're caught in the race

You're never gonna slow downYou're dressed to kill

Kill me baby

You're never gonna let go

You're dressed to kill

You kill me baby

You're dressed to killYou're dressed to killYou're dressed to killAhhhh, yeah

Kill me baby

You're dressed to kill

You kill me baby

You're dressed to kill

You're dressed to kill... etc.
