Angels With Dirty Faces

Warlock

See my soul as desire
Catch the words as they fall from my lips
Feel the passion grow higher
Lick the sweat from my fingertips
Be my love
Beware my love is strange
Be my love
Beware the time can change
See my scars heat the hunter
Catch the thoughts as they race with the wind
Hear my heart beat like thunder
Free yourself, let the madness begin
Be my love
Beware my love is strange
Be my love
Beware the time can change
We're angels with dirty faces
Livin' all alone
Angels with dirty faces
So far from home
Our dirty minds go on and on
Our fear of night is long gone
We're angels with dirty faces
So far from home
Touch my skin
It's on fire
Light your dreams with the heat of the sun
Let your passions expire

Burn it up till there's nowhere to run
Be my love
Beware my love is strange
Be my love
Beware the times have changed
We're angels with dirty faces
Livin' all alone
Angels with dirty faces
So far from home
Our dirty minds go on and on

Our fear of night is long gone
We're angels with dirty faces
So far from home
So far from home
Be my love
Beware my love is strange
Be my love
Beware the times have changed
We're angels with dirty faces
Livin' all alone
Angels with dirty faces
So far from home
Our dirty minds go on and on
Our fear of night is long gone
We're angels with dirty faces
So far from home
So far from home
So far from home
So far from home
So far from home
