## Young the Giant

Advisory - the following lyrics contain explicit language:

Teachers  
They try to  
Reach us  
They said it's who you know  
But now you're grown up  
And it's time  
You were tested  
This city made you gold and only when you're fucked up  
Do you miss the friends?  
The names you crossed offAnd I know it's hard to be sane  
Temptation is so friendly  
I need this release now  
I find I can't stop dreamingI'm awake  
In a parking lot  
Where all the friends  
The names are crossed offWon't you ask me  
Are you in love with the city?  
All the stars  
Whiskey bars  
And I'm on my back I'm waiting  
Yeah you could say that I'm praying  
Will I remember  
Where I misplaced you?And I know it's hard to be sane  
Temptation is so friendly  
You come back  
To see it  
The fever  
You feel it!  
I need this release now  
I find I can't stop dreamingI'm awake  
In a car  
Hollywood

Boulevard  
Is this who you are?Oh!  
Run now!  
Run now!I need this release now  
I find I can't stop dreaming!
