

V.i.p.

Nneka

Rock on, come on, come on
Come on, come on, come on
Chillin' at the club
Showing niggas how we ball
Ever since the drought
It's been nothing but the trump

Can you really blame me for getting these G's
Something I don't understand
Why you fools after me, VIP
Got the haters after me
'cause I push these V's
They want to be like me
If you agree
Then raise the roof with me
In the party place to be
Living VIP

Since when did money, oh
Become such a problem
I just want to live a life
That only involve the numbers, yeah

Can you really blame me for getting these G's
See what I can't understand
Why you fools don't rock with me, VIP
I got the haters after me
Because I push these V's
They want to be like me
If you agree (If you agree)
Then raise the roof with me (Raise the roof with me)
In the party place to be (In the party place to be)
Living VIP

Ha ha, nothing but the
Stretch Bentleys with the top that's drop, that's right
Kelly CD's with the sound that knocks
When the party rocks
Fingers to the wrist filled with nothing but rocks
I know you haters want to come to Rockland's party

But you can't get in unless you VIP

Can you really blame me for getting these G's

See what I can't understand

Why you fools are after me, livin' V

So if you're ballin' and you know, raise your hands

And if you sexy and you know it, stomp your feet

And if your man ain't spendin' money on you

Then ladies, you can come and get with me

A little V

Yo, uh huh, wish I could call up all the haters

I mean, I wish I could make a phone call

To all the haters around the world

You know what I'm saying?

This is what I'd say

What's goin' on in the world today, huh?

Seems like every nigga got beef 'cause they ain't got steak

When I ain't had no money see, everything was cool

But now that I got a little money and y'all want to act a fool

And none of 'em VIP

VIP, I got the haters after me

Because I push these V's (What?)

They want to be like me (Raise the roof, y'all)

If you agree (Now let's lock)

And raise the roof with me

(Over this here's, just bring it on)

In the party place (Uh, Rockland)

To be living VIP, VIP

I got the haters after me

Because I push these V's

They want to be like me

(Wanna be a)
