Sleepless

Until June

Oh, when you were young, did you ever love someone
So much, you couldn't bear the thought of losing them?
Well, I remember the sleepless nights when I would lie awake
If only I could tell you how I feelSleepless nights
Well, I remember the sleepless nights
Sleepless at nightWell, I would walk around the earth to have another chance with you
Spending evening pains and thoughts of all you do
Well, I remember the sleepless nights when I would lie awake
If only I could tell you how I feelSleepless nights
Well, I remember the sleepless nights
Sleepless at nightHave you ever loved someone hard to find?
Have you loved someone? Could you ever love someone?
Oh noWell, I remember the sleepless nights when I would lie awake
Fix me, I'm on my own,
Well, I remember the sleepless nights when I would lie awake
Fix me, I'm on my ownWell, I remember the sleepless nights when I would lie awake
Fix me, I'm on my own
Well, I remember the sleepless nights when I would lie awake
If only I could tell you how I feel
