I Fail Truth

16Volt

some things do
i fail truth
some things do
this fucking radio doesn't even ever work
nothing coming through but static from the earth
there's parts inside
that are despised
i fail truth
some things do
i fail truth
some things do
i find these things are made with little realised
i find they fall apart after a few days of life
let parts divide
and get revised
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do
i fail truth
some things do

i fail truth
some things do
i fail truth.
