

Kings Get Beheaded (feat. Joel Marcellus)

Chris Wisdom

KINGS GET BEHEADED

(Hook)

Put me on a pedestal just to knock me down waiting to see me fall Hoping Iâ€™m not around
They crown you king just to behead you; they crown you king just to behead you

(Verse 1)

watched them sell water to a cliff Then profit of the people told them Don't go chasing water falls

Watched them sell birds to sky and pointed to the heavens and said believe you can fly

For the lack of vision and purpose, my people shall die

So feed them false hope and sell them fake dreams Make profit of the profits it's all about the cream

Cash rules everything around me, but not me nope

(Hook)

Put me on a pedestal just to knock me down waiting to see me fall Hoping Iâ€™m not around
They crown you king just to behead you; they crown you king just to behead you

(Verse 2)

What you saying everybody got 15 min of fame but change gone come you reap what you sow
If you live by the gun, then you die by the fire all my fighting on the mic, all these rappers I retire

Long as air in my lungs I'm singing off key Get the hell off me, literally

Lyrical bandit causing lyrical ligament damage, Lyrical peter panning it's not about the hook

your talent can take you where your character canâ€™t keep you

Once you challenge Gods kids your king can save you

You can keep the stage I don't want the fame, You can keep the mic I don't want the game

You can keep the money all I want is change, all I want is change, all I want is change

(Hook)

Put me on a pedestal just to knock me down waiting to see me fall Hoping Iâ€™m not around
They crown you king just to behead you; they crown you king just to behead you

(Verse 3)

I got planted and rose like the rose from the concrete Turn my roots into wings & my thorns into a crown

they call me king, hope I love the way it sounds

Fall in love the title and position glorify myself forget about my mission

you can keep the life we saving non-believers, you can keep it all, all I want is Jesus

(Hook)

Put me on a pedestal just to knock me down waiting to see me fall Hoping Iâ€™m not around

They crown you king just to behead you; they crown you king just to behead you
