

# Homesick

## Thirsty Merc

Lotta kids with a homesick view  
Deep down  
I know that Ive been homesick too  
But something tells me its alright  
I know Ill be back in your arms tonightIve traveled down some lonely roads  
Al most lost my wayI would give all my time  
just to spend my nights with you  
I would lay down my fears  
Just to spend my years with you  
Cause when Im standing at your door  
I dont feel homesick anymore  
When Im standing at your door  
I dont feel homesick anymoreAnd after all I said and done  
Weve made the most of love
