

# Monophobia (feat. Rob Swire)

[deadmau5](#)

Inside my head, there's a little place left for you  
What do you know?  
What do you know?  
And all I want is to find out what you're going through  
What do I know?  
Maybe this silence is dangerous  
Inside my head, there's a little place left for you  
What do you know?  
What do you know?  
And feel what's inside you  
I wanna come over  
And see what you've found  
See if you're hurting  
After tearing me down  
It's the rain of denial  
It's the way that you're faking  
All the tears in your eyes  
Feel like I'm in slow motion  
Tonight  
And all I want is to find out what you're going through  
What do I know?  
Maybe this silence is dangerous  
I wanted to hide  
Now, I just wanna find you  
And feel what's inside you  
I wanna come over  
And see what you've found  
See if you're hurting  
After tearing me down  
It's the rain of denial.
