## Uh Huh Her

We're never gonna break again  
One more time I'll get you close to the edge  
We're never gonna break again  
One more time I'll get you close to the edge  
We're never gonna break again  
One more time I'll get you close to the edge  
We're never gonna break again  
One more time I'll get you close to the edge Your love is perfectly in time  
My love is perfectly in time  
I'm never gonna break again  
One more time, I'll get you close to the edge  
We're never gonna break again  
One more time I'll get you close to the edge  
We're never gonna break again  
One more time I'll get you close to the edge  
We're never gonna break again  
One more time I'll get you close to the edge Interconnect
