# PokerFace

## Cartman

Play it takes me where I wanna go
I love the time we have
A name that know one knows
The feelin' flows the music takes me there
Inside I light the fire
That burns the best
Inside I feel alive
So softly blessed
May I feel the air, skin still fair
I love the time we have
A claim on broken bones of casted stones
The music takes me there
Inside I light the fire
That burns the best
Inside I feel alive
So softly blessed
I feel so blind a world so kind
Days are fighting through the light

If only
We cannot find a world sublime
Things are runnin' through my mind
If only
I feel so blind a world so kind
Days are fighting through the light
If only
We cannot find a world sublime
Things are runnin' through my mind
If only
Inside I light the fire
That burns the best
Inside I feel alive
So softly blessed
Inside I light the fire
That burns the best
Inside I feel alive
So softly blessed
