Garner Hall Music Room

Braid

1
close windows and drapes
to avoid flying glass and
water damage2
close room door and
evacuate to the nearest
designated shelter area3
do not use the elevator4
seek protection from window areas
do not go outside the building
this is not a testin the event of an emergency
don't forget to salvage the scene
a laundry list of spitfire items
and the ring you never wearhall walls are painted planted
hall walls never sweat
hall walls can manage damage
but we never forget5
assume seated position in a
shelter area and await notification
that the danger has passedhall walls are cornered in corners
hall walls stay staked
hall walls can contact coroners
hall walls don't break
