

# Garner Hall Music Room

## Braid

1

close windows and drapes  
to avoid flying glass and  
water damage2

close room door and  
evacuate to the nearest  
designated shelter area3  
do not use the elevator4

seek protection from window areas  
do not go outside the building

this is not a test in the event of an emergency

don't forget to salvage the scene  
a laundry list of spitfire items

and the ring you never wear hall walls are painted planted

hall walls never sweat

hall walls can manage damage

but we never forget5

assume seated position in a  
shelter area and await notification

that the danger has passed hall walls are cornered in corners

hall walls stay staked

hall walls can contact coroners

hall walls don't break
