

# Plair (feat. Audio Push)

## Packy

Yup

All my mail still gets sent up north  
I ain't shut down the office I set up more  
I been on the road cashin' checks  
Check the cash, pay the bill, keep a show and I get ass  
Now I hate authority figs  
These shows make me want to date sorority chicks  
I don't really think I'm a player but my stats back it  
Imma be the Cinderella in my tax bracket  
Boom Shock  
Flocka with the flame  
Tube sock rocker  
Fresh like Binaca  
Been places seen faces too  
But my favorites are their [?]  
Why I got the most fans and the least presses  
Lord bless us, we just want to live  
We just want it all, cuz we just want to give  
And if I ever see the words and end it better start with dib  
Know what I'm sayin'  
Why put it down for these choes no delayin'  
Got the lingo they don't know what we sayin'  
Don't need to stop game for the replayin'  
That nice, checkin' the game  
Drop 50 like half price punch in the hook got [?] like halfpipes  
I'll slip even if I rock black ice  
That plair  
  
I got that plair  
That plair  
That plair  
That shit that make everyone stare  
I got that plair  
That plair  
That plair  
They not in my circle they square  
I got that wierd doe  
That not what you're used to  
For my people that stand out, do you

Make way for the new school

You don't gotta be like everybody baby who knew  
(You don't gotta be like everybody) baby who knew  
(You don't gotta be like everybody) baby who knew  
(You don't gotta be like everybody) baby who knew  
(You don't gotta be like everybody) baby who knew  
(You don't gotta be like everybody) baby who knew  
(You don't gotta be like everybody) baby who knew  
You don't gotta be like everybody just do you

That plair, that plair, that plair

Kobe Bryant Chris Webber

Hey all ballin' we bouncin' that's clever

Will we ever stop

No no never

Bounce please

Keep it on the low

Everything that we 'bout to do it for

20 a W greatest weed smoke'll get the, stress up, off of, my, mind

Straight up

...

That can't get the women

You love off his penis

For Venus Serena like Tim is the meanest

Back and forth and back and forth until he finish

Bounce the ball ya shoot until I hit it

I figured out how to dunk and then I did it

Like to say right away I keep it simple

My pimpin' friends like to say I keep it pimpin'

So I guess that's exactly what I'm doin'

Smooth ...

So fuck is you doin'

Wastin' time takin' either way you got to speed up the pace

This paper flip ain't a weight, chill

And I hate wait

Shit damn

Gotta be good at this cuz I'm just doin' this and I ain't even tryin'

I'm the greatest of my time

Studied every rhyme and I don't like your position

So I write on a mission to change the lights in my kitchen

Now I'm ready to sit in

I'm at the top of your mission

So you sit up in your chair and watch that nigga over there

Look

I'm a player and I'm the most valuable  
You ain't know nigga now you know  
It's not about what you go through but it's about how you go  
Better yet how you rode through this shit  
My old chick in the club tryin' to get my attention but I don't want nothing to do with it  
Real players  
A few exist  
And I'm one of them  
My women tell me yes but if you resist  
But I don't sweat none  
Soon as they act up I treat 'em like step sons  
Then I find myself alone thinkin' about my humbles  
That's when I'm all stressed  
Now that niggas screamin' now more love  
But where I'm from niggas can't run  
Where I'm from you niggas can't come  
Catchin' on that dirty money got the stank thumb  
Cash your check after check until the bank run  
None of that money  
I ain't playin'  
I know I said I was a player but nigga LeBron James  
Every time it's game day I'm hearin' my mom sayin' baby take a ...  
Niggas better play defense cuz you can't stop my pend do not pretend  
If I ain't droppin' ... I'm droppin' gems  
That why Hendrix no shirt  
I'm clockin' in  
Got the win before a nigga count to ten because I'm a motherfuckin' plair
