

# Unit 731 (Demo 2001)

## Atomizer

Let the nightmares begin  
Genocide and the Unit 731  
Bio warfare and the Unit 731  
    With liquid sprays  
And syrums in your veins  
    And flea bomb raids  
    And genetic plagues  
Through poisoned air  
    A virus to be aware  
    Plague and tetanus  
    And tuberculosis  
A human test subject  
    Is what we'll use  
For the 731 There's many to choose  
    In Shinjuku  
That's where your body was found  
    Not buried deep  
    Or far underground  
    Near Ishil's labs  
    No not far away  
    Families grieved  
But it was swept away  
Yes human test subjects  
    Are what we'll use  
    For the 731  
There's many to choose  
    To probe and abuse  
    Infect and infuse
