

Rival Dealer (Timmies Remix)

Burial

I'm gonna love you more than anyone
I'm gonna love you more than anyone This is who I am This is who I am It's about sexuality, it's about showing a
person who you are-to me, this is who I'm about Sometimes you are trying to find yourself
And you run away always
And that's what happened to me
I've chosen This is who I am
You know my motherfucking style We're good to role Tian di jian I've been watching you
I want to be you This is who I am
This is the best way to go
That way, you can see the city lights brighter than ever
And stars and constellations
And it's breathtaking
The star field is just so spectacular
And one day, I saw something come down to us
Come down to us
