

# Emotionally Yours

## Jimmy LaFave

Come baby, find me  
Come baby, remind me  
From where I once begun  
Come baby show me  
Show me that you really know me  
Tell me you are the one  
I could be learning  
Baby you could be yearning  
To see behind closed doors  
And I will always be  
Emotionally yours Come baby, rock me  
Come baby, won't you lock me  
Into the shadows of your heart  
Come baby, teach me  
Come baby, won't you reach me  
Let's let our music start  
I could be dreaming  
But baby, I keep believing  
You're the one I've been praying for  
And I will always be  
Emotionally yours It's like my whole life never happened  
Every time I see you  
It's like I never even had a thought  
I know my dream it might be crazy  
But it's the only one  
Only one I've got Come baby, wake me  
Come baby, won't you shake me  
I would be so satisfied  
Come baby, hold me  
Come baby, won't you please help me  
My arms, they are open so wide  
Honey, I could be unraveling  
Wherever I may be traveling  
Even on this distant shore  
But I will always be  
Emotionally yours
