EnKay47 - Confidence

Raise me up, put me down,
Call me names, make it loud,
I can scream, u can shout,
But I don't need u...
Raise me up, put me down,
Call me names, make it loud,
I can scream, u can shout,
But I don't need U cuz I'm confident.

U tell me drown, I swim,
U say that I'm out, I'm in,
U say that I can't do something,
Then I'm gonna prove to u that I can,
I will, I'm real,
If u wanna challenge me, then I'm thrilled,
If u wanna bring a knife into a gun fight,
With enkay47 then you're gonna get killed,
I've dealt with shit for too long,
I say that I'm right but I do wrong,
I claim that I'm able to take all the pain away just by makin a new song,
It's too late, let's move on, that u ain't use this song,
Make a name, make a change, to proclaim that you're strong,
I make music for myself, nobody else,
I don't give a fuck what u say about me,
Yo, What the hell?
U think I give two shits?
U think that I'm influenced?
Ill break your arms in fucking half and make a crucifix,
I demand respect,
If u wanna attack u better plan your step,
Enkay47 is a fighter, and he's better than he's ever been, discredit him, and... you're dead.
If u hate ypur life, u change it,
Don't claim the change and do the same shit,
I was made for this game, for fame, and the sake of making a change, I'll make It!

Raise me up, put me down,
Call me names, make it loud,

I can scream, u can shout,
But I don't need u...
Raise me up, put me down,
Call me names, make it loud,
I can scream, u can shout,
But I don't need U cuz I'm confident.

Yo, I'm not cocky, I'm just confident,
I made this song because I'm confident,
If u agree then sing along with it,
Say you're confident.

Look inside the mirror, and tell me what u see,
Cuz all I see is a failure,
Look inside the mirror, and tell me what u see,
Cuz all I see is a failure,
U don't got no confidence,
I see anxiety, and everytime u smile,
I see the pain that's hiding deep,
Inside of u, inside of me,
U just gotta show, some confidence.

This plan is mine to take,
I just wanna rap and to find my place,
I ain't gonna drop, I ain't ever gonna stop,
With hip hop and pop I'm just tryna stay,
Tick tock on my wrist watch while I'll kick rocks,
I gotta improve there ain't no time to waste,
When I'm alienated in the flight of space,??
(when I'm alienated in the flight of space)??
And that's it,
I don't wanna cope with shit,
I just wanna hope that shit,
Falls into place, I don't ever wanna change,
I don't wanna live in the predicament, I wanna stay,
In the same lane, the same person,
Never wanna get played, never wanna work when, I don't have to,
If your singing along to my song, u described yourself, it went passed u.

Raise me up, put me down,
Call me names, make it loud,
I can scream, u can shout,
But I don't need u...
Raise me up, put me down,
Call me names, make it loud,

I can scream, u can shout,
But I don't need U cuz I'm confident.

Yo, I'm not cocky, I'm just confident,
I made this song because I'm confident,
If u agree then sing along with it,
Say you're confident.

Raise me up, put me down,
Ain't nobody wanna get my CD,
Raise me up, praise me now,
Everybody wanna say I'm crazy,
That I don't work hard I'm lazy,
That I don't work hard I'm lazy?
Who the fuck do u think u are to tell me that I don't work hard?
You're crazy!
This is all I've got,
I don't wanna die but I might just drop,
When the mic, is a rock,???
If I'm hyped its a problem,???
If I'm in a bind then I die,???
Then I promise, Ima make my mark,
Pave this road and make flames from sparks,
I don't wanna say that when I go to my grave, that my life is over when my life just starts...

Raise me up, put me down,
Call me names, make it loud,
I can scream, u can shout,
But I don't need u...
Raise me up, put me down,
Call me names, make it loud,
I can scream, u can shout,
But I don't need U cuz I'm confident

Yo, I'm not cocky, I'm just confident,
I made this song because I'm confident,
If u agree then sing along with it,
Say you're confident.
