# Bigger Picture

## The Waterboys

I'm starting to see a bigger picture
I'm beginning to color it in
I'm starting to see a bigger picture
I'm beginning to color it in

My soul the sky, my heart a sun
my mind a world - my only one
My thoughts the people, the world around
My dreams the kings - or the clowns

I'm starting to see a bigger picture
I'm beginning to color it in
I'm starting to see a bigger picture
I'm beginning to color it in

The continents and the seven oceans
bound the range of my emotions
My time is long but not forever
My moods are the changing wind and weather

I'm starting to see a bigger picture
I'm beginning to color it in
I'm starting to see a bigger picture
I'm beginning to color it in

Color it in !
Color it in !
